Sadia Sabir

Public Health Expert|Research Specialist|British Councile Scholar

Sadia Sabir is a distinguished alumna of COMSATS University Islamabad whose career serves as a bridge between rigorous molecular science and transformative public policy. A recipient of a **fully funded British Council MS Scholarship** at COMSATS, Ms. Sabir has dedicated her professional life to fortifying Pakistan's health security and administrative transparency.

Pioneering Pandemic Response & Infrastructure during the COVID-19 pandemic, Ms. Sabir demonstrated exceptional leadership as a **Molecular Biologist at the Provincial Public Health Lab**. She optimized diagnostics to process over **2,000 samples daily** and provided the technical vision instrumental in the **establishment of 10 molecular laboratories across Balochistan**. This feat fundamentally decentralized life-saving diagnostic services, bringing critical healthcare to the province's most remote regions.

National Impact & Health Security Her impact extended nationally during her tenure as a **Technical Officer for Jhpiego** (an affiliate of Johns Hopkins University). Under the Global Health Security Agenda, she successfully increased Integrated Disease Surveillance and Response (IDSR) reporting compliance from **10% to 90%** in flood-affected districts. Furthermore, she co-led a national bioinformatics Training of Trainers (ToT) in collaboration with **Thailand's NIH** and Johns Hopkins University, strengthening Pakistan's genomic surveillance capacity.

Innovation in Digital Governance Currently, as a **Research Specialist at the Chief Secretary's Office**, Ms. Sabir has pioneered digital governance through a **Performance Dashboard tracking 650+ KPIs across 36 districts**. Her establishment of the **Grievance Redressal System (Open Court Hearing)** has institutionalized accountability across **40 government departments**, ensuring that data-driven findings lead to targeted provincial interventions.

Global Leadership & Ethical Excellence a **U.S. Department of State IVLP Fellow** and one of the few **Certified Cyber biosecurity Experts** in Pakistan, Sadia Sabir embodies the excellence, integrity, and innovative spirit that COMSATS University aims to instill in its graduates. Her body of work, which includes **eight peer-reviewed publications**, reflects a deep commitment to evidence-based progress and the socio-economic uplift of her country.

Sadia Sabir

Research Specialist, Chief Secretary's Office
