Saarbrücken Graduate School of Computer Science - CONTRACT

Dear Ms. Aslam,

You have been awarded a graduate scholarship in the Saarbrücken Graduate School of Computer Science at Saarland University.

The Saarbrücken Graduate School in Computer Science seeks to provide an optimal environment for pursuing doctoral studies in advanced computer science. Graduate students in computer science have access not only to one of the leading departments in Germany, but also to the co-located Max Planck Institute for Informatics, Max Planck Institute for Software Systems, the Center for IT-Security, Privacy and Accountability, and German Research Center for Artificial Intelligence (DFKI).

During the preparatory phase of your doctoral studies, the scholarship amounts to 1000 Euro a month. It will be granted as of 01 April 2018 for twelve months (until 31 March 2019). The scholarship is subject to semi-annual review and will be upheld given successful evaluation of your progress. The preparatory phase should not exceed 18 months.

Scholarships are exempted from taxation by German law (§ 3 Nr. 44 EStG) and from social security payments, as they are not considered to be regular employment. We cannot assume any insurance coverage for you and advise you to make your own health insurance arrangements and others as needed.

In accepting the scholarship, you agree to commit yourself fully to fulfilling the requirements of the Graduate School program and to actively participating in its activities. You must report regularly on your progress and immediately inform us of changes in your course of studies and research, as well as of any personal changes which may affect these. During the preparatory phase, you may take on an academic or scientific job not exceeding an income of 500 Euro per month, provided it does not interfere with your studies. Earnings beyond this amount must be deduced from your scholarship and can affect the tax exemption status.

Before the scholarship is concluded a final report has to be presented. This report is to be handed in as modifiable electronic data file.

The Graduate School reserves the right to withdraw the award completely or in part or to claim a refund, if the conditions are not met, or if the DFG (German Research Foundation) is not provided with the required budget by its sponsors.

Please confirm the conditions of the scholarship by sending back a signed copy.

Sincerely,

i.A. Michelle Carnell

Prof. Raimund Seidel

SAARLAND UNIVERSITY
GRADUATE SCHOOL OF COMPUTER SCIENCE

I agree with the conditions for a graduate scholarship as stated above.

17/Dec/2017, Sidra Aslam
