TITLE	CITED BY	YEAR
Integrating Pre-Trained protein language model and multiple window scanning deep learning networks for accurate identification of secondary active transporters in membrane proteins MS Malik, YY Ou Methods 220, 11-20	18	2023
ProtTrans and multi-window scanning convolutional neural networks for the prediction of protein-peptide interaction sites VT Le, ZJ Zhan, MS Malik, YY Ou Journal of Molecular Graphics and Modelling 130, 108777	13	2024
DeepPLM_mCNN: An approach for enhancing ion channel and ion transporter recognition by multi-window CNN based on features from pre-trained language models VT Le, MS Malik, YH Tseng, YC Lee, CI Huang, YY Ou Computational Biology and Chemistry 110, 108055	8	2024
The challenges and opportunities to formulate and integrate an effective ict policy at mountainous rural schools of gilgit-baltistan S Rahim, T Bibi, S Bahadur Qutoshi, S Gul, Y Gul, NAKK Khani, MS Malik Information 11 (11), 522	7	2020
VesiMCNN: Using pre-trained protein language models and multiple window scanning convolutional neural networks to identify vesicular transport proteins YH Tseng, YC Liu, MS Malik, YY Ou International Journal of Biological Macromolecules 280, 136048	4	2024
MCNN_MC: Computational Prediction of Mitochondrial Carriers and Investigation of Bongkrekic Acid Toxicity Using Protein Language Models and Convolutional Neural Networks MS Malik, YY Chang, YC Liu, VT Le, YY Ou Journal of Chemical Information and Modeling 64 (24), 9125-9134	4	2024
ATP_mCNN: Predicting ATP binding sites through pretrained language models and multi-window neural networks VT Le, MS Malik, YJ Lin, YC Liu, YY Chang, YY Ou Computers in Biology and Medicine 185, 109541	3	2025
NA_mCNN: Classification of Sodium Transporters in Membrane Proteins by Integrating Multi-Window Deep Learning and ProtTrans for Their Therapeutic Potential	2	2025

TITLE	CITED BY	YEAR
MS Malik, VT Le, YY Ou Journal of Proteome Research 24 (5), 2324-2335		
DEEPTRANS: Enhancing primary active transport protein prediction via RAG-augmented protein language models and multi-scale deep learning MS Malik, YY Ou Chemical Physics Letters, 142495	1	2025
DeepCR: predicting cytokine receptor proteins through pretrained language models and deep learning networks VT Le, JPT Yuune, TTP Vu, MS Malik, YY Ou Journal of Biomolecular Structure and Dynamics, 1-18	1	2025
NAD_MCNN: Combining Protein Language Models and Multiwindow Convolutional Neural Networks for Deacetylase NAD+ Binding Site Prediction VT Le, YC Liu, YY Chang, YC Lee, YJ Lin, MS Malik, YY Ou Chemical Biology & Drug Design 105 (4), e70085	1	2025
MCNN-AAPT: accurate classification and functional prediction of amino acid and peptide transporters in secondary active transporters using protein language models and multi … MS Malik, VT Le, SMA Shah, YY Ou Journal of Biomolecular Structure and Dynamics, 1-10	1	2024
XGboost-Ampy: Identification of AMPylation Protein Function Prediction Using Machine Learning ZNK Swati, A Ghulam, M Sohail, JU Arshed, R Sikander, MS Malik VAWKUM Transactions on Computer Sciences 10 (2), 83-95	1	2022
AOPs-XGBoost: Machine learning Model for the prediction of Antioxidant Proteins properties of peptides S Rahu, A Ghulam, ZNK Swati, JU Arshed, MS Malik VAWKUM Transactions on Computer Sciences 10 (2), 73-82	1	2022
RAG-msCNN: predicting protein-DNA binding sites by integration of retrieval-augmented generation (RAG) with protein language models and the multi-scale separable convolutional … MS Malik, M Hussain, QT Ho, VT Le, YY Ou Biomedical Signal Processing and Control 115, 109407		2026
mCNN-glucose: Identifying families of glucose transporters using a deep convolutional neural network based on multiple-scanning windows SMA Shah, M Rafi, MS Malik, SA Malik, YY Ou International Journal of Biological Macromolecules 294, 139522		2025
