PUBLICATIONS

1. **DynamicSwin-Fire: A Dynamic Swin Transformer with Fire-Specific Attention and Edge-Guided Gradient Fusion for Robust Fire**
   - Accepted in IEEE Transactions on Geoscience and Remote Sensing (Q1, IF = 8.6, CiteScore = 13.6)
   - Ahmad, Naveed, Mariam Akbar, Eman H. Alkhammash, and Mona M. Jamjoom
     - https://ieeexplore.ieee.org/document/11194241/

1. **QFS-MSGRU: Quantum Feature Selection Approach Integrate with Multi-Scale GRU Networks for Robust Parkinson's Disease Prediction**

   - Published in IEEE Access Q1, IF = 3.6, Cite Score = 9 - Ahmad, Naveed, Mariam Akbar, Eman H. Alkhammash, and Mona M. Jamjoom. "QFS-MSGRU: Quantum Feature Selection Approach Integrate with Multi-Scale GRU Networks for Robust Parkinson's Disease Prediction." *IEEE Access* (2025).

2. **CN2VF-Net: A Hybrid Convolutional Neural Network and Vision Transformer Framework for Multi-Scale Fire Detection in Complex Environments**

   - Published in Fire (MDPI) Q1, IF = 2.7, Cite Score = 3.9 - **Ahmad, Naveed,** Mariam Akbar, Eman H. Alkhammash, and Mona M. Jamjoom. "CN2VF-Net: A Hybrid Convolutional Neural Network and Vision Transformer Framework for Multi-Scale Fire Detection in Complex Environments." *Fire* 8, no. 6 (2025): 211.

3. **FireNet-KD: Swin Transformer-Based Wildfire Detection with Multi-Source Knowledge Distillation**

   - Published in Fire (MDPI) Q1, IF = 2.7, Cite Score = 3.9 - **Ahmad, Naveed,** Mariam Akbar, Eman H. Alkhammash, and Mona M. Jamjoom. "FireNet-KD: Swin Transformer-Based Wildfire Detection with Multi-Source Knowledge Distillation." *Fire* (2025).

4. Cyber attacks detection through machine learning in banking

- Publish in Bulletin of Business and Economics (BBE) (HEC Recognized Journal)
- Gill, Mohsin Asad, Naveed Ahmad, Madiha Khan, Fahad Asghar, and Awais Rasool. "Cyber attacks detection through machine learning in banking." Bulletin of Business and Economics (BBE) 12, no. 2 (2023): 34-45.

5. One Paper Under Review
