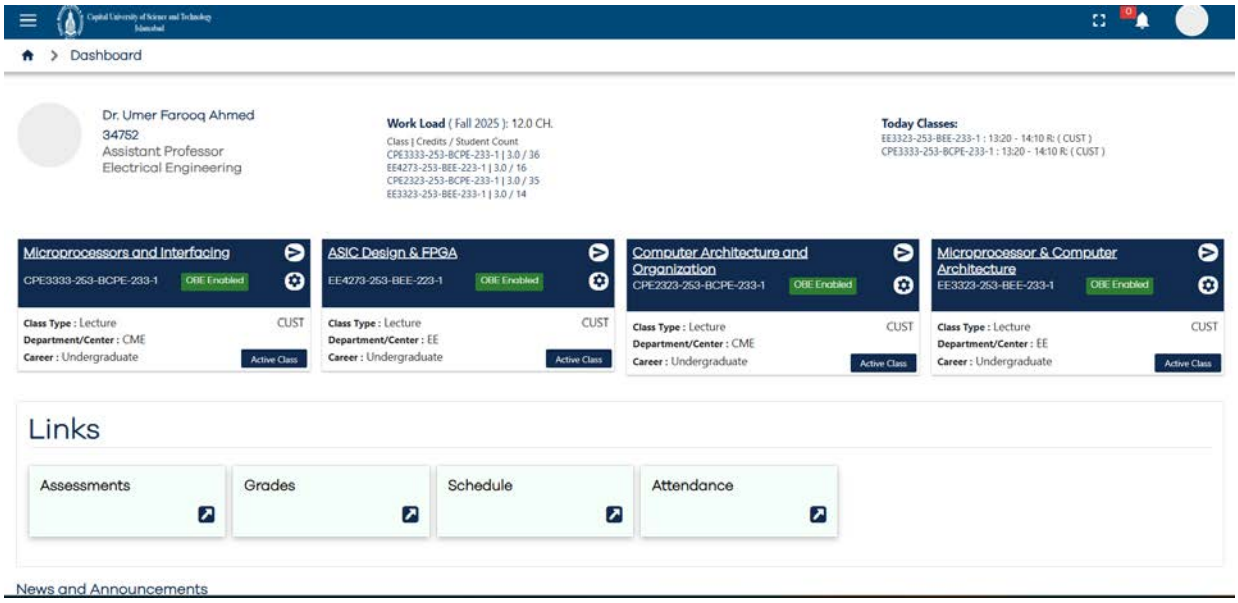
Teaching & Academic Service

Name: Dr. Umer Farooq Ahmed
Designation: Assistant Professor / Head of Electrical Engineering Program
Department: Electrical and Computer Engineering
Institution: Capital University of Science and Technology (CUST)

Courses Taught

- Applied Physics
- Computer Architecture and Organisation
- Digital Logic Design
- Linear Algebra
- Electronic Devices and Circuits
- Microprocessor and Interfacing
- Numerical Analysis
- Digital Design
- ASIC Design and FPGA
- Microprocessor and Computer Architecture

Evidence: LMS screenshot of course delivery (attached).



Administrative & Academic Responsibilities

- Head of Electrical Engineering Program (Annexure A-1)
- Curriculum planning and course coordination
- Examination and assessment oversight
- Faculty coordination and academic quality assurance
- Undergraduate and postgraduate academic advising
- Commonwealth University Representative (Evidence below)

Outlook

Welcome to the ACU Ambassador Network, Ahmed

From Dr Juliana Bertazzo <juliana.bertazzo@acu.ac.uk>

To Dr. Umer Farooq Ahmed/ECE <umer.farooq@cust.edu.pk>

You don't often get email from juliana.bertazzo@acu.ac.uk. Learn why this is important

Dear Umer Ahmed,

Thank you for accepting the voluntary role of ACU Ambassador, and enabling Capital University of Science and Technology, Islamabad to make the most of their ACU membership.

Being an ACU Ambassador means you are the first to hear about our work so you can serve as a main point of contact between the ACU and your colleagues.

I warmly invite you to join our online platform for ACU Ambassadors, ACU Connect.

On ACU Connect, you can:

- network directly with other ACU Ambassadors from across the Commonwealth;
- promote your university's opportunities, programmes and projects by posting on the platform;
- attend online events directly on ACU Connect;
- keep up to date with all the opportunities from the ACU and our partners that you can share with colleagues at your university.

I will send you an email invitation now with a link to sign up to ACU Connect. The email will come from no-reply@circle.so If you do not see this email, please check your Junk/Spam folder.

Once you have signed up to ACU Connect, you will receive weekly digest emails every Thursday with a useful round-up of content from the platform, delivered straight to your inbox. Please also ensure that you complete your profile, so that other ACU Ambassadors can learn more about you for potential partnerships and other collaboration opportunities.

I look forward to seeing you on ACU Connect.

With my best wishes,

Dr Juliana Bertazzo

Senior Membership Engagement Manager

Caution: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Student Supervision & Mentoring

I have supervised undergraduate Final Year Projects (FYPs) in the Electrical and Computer Engineering discipline. Recently, a supervised FYP project (Battery Management System) won the Best Project Award in the ECE department in the previous semester.

Evidence: FYP Best Project Award documentation (attached).
