Farah Gul Rahuja – Alumni Excellence Nomination

Farah Gul Rahuja is a Pakistani AI innovator, social entrepreneur, and advocate for inclusive technology. She co-founded **PakGPT**, Pakistan's first AI-powered conversational platform designed for low-bandwidth environments and local languages (Sindhi, Urdu, Pashto), providing rural youth, women, and farmers with access to education, healthcare, climate guidance, and livelihood resources.

Through PakGPT, Farah has trained **150+ Digital Ambassadors**, empowering them to become community leaders in technology adoption. She has organized **national AI hackathons, workshops, and awareness campaigns**, mobilizing young innovators across Pakistan to develop, socially impactful AI solutions, to boost the regional startup ecosystem of Pakistan.

Her work has received international recognition, including being named **Global Youth Leader in AI Innovation** at the World Internet Conference 2024 and earning the **Global Excellence Action Award** at the World Youth Development Forum 2025. Through her leadership, Farah continues to advocate for AI as a public good that uplifts marginalized communities, promote digital equity, youth empowerment, and systemic inclusion across Pakistan and the global south.
