EXINITY
TECHNOLOGIES [SMC-PVT] LTD

To Whom It May Concern

It is my distinct privilege to recommend **Ms. Rida e Noor Gilani** for the **Distinguished Alumni Award**.

I co-founded **Texinity Technologies** with Rida in 2021, at a time when she was still an undergraduate. From the very beginning, I witnessed her exceptional vision, leadership capability, and entrepreneurial mindset. Under her strategic guidance and direction, Texinity Technologies has grown to a team of over **20 employees**, generated **USD 60,000 in total revenue**, and established a stable **USD 10,000 in recurring monthly revenue**.

Rida played a pivotal role in the conceptualization and execution of **SocialsBoard**, Pakistan's first locally developed social media management platform. Currently, she is leading the development of **Vyzno**, an innovative product designed to address the operational challenges we encountered during our early startup journey demonstrating her ability to transform real-world problems into scalable solutions.

Beyond measurable business success, Rida remains deeply committed to **mentorship and capacity building**. She has actively organized internship drives and on-site industrial experience programs, providing numerous undergraduates with hands on exposure to technology, product management, and professional corporate workflows. Her efforts have significantly contributed to bridging the gap between academic learning and industry requirements.

Rida's rare combination of **strategic vision, execution excellence, and dedication to developing others** truly sets her apart. She exemplifies the qualities of a forward-thinking leader and innovator, making her a highly deserving candidate for the Distinguished Alumni Award.
